Module 2 - Content

Module 2 - Content

2.1 Introduction: Check out this video explaining what you'll be learning about in Module 2 - and wrap your mind around the concept of "semantic markup".

2.2 Attributes: Here you will build on to what you have already learned about attributes.

2.3 Semantic meaning: Explaining the difference between 'semantic' and 'style'.

2.4 Images: Learn how, when, and where to best utilize images in your Web pages.

2.5 Hyperlinks: They are the connections that allow the world to jump from place to place on the Web. Explore the secrets of this powerful mechanism!

2.6 Exercises - Module 2: Lets check what you've learned during Module 2.
