Activity - Best practices and discussion

Activity - Best practices

1. Compare and contrast these two different HTML Style Guides:

- jQuery - <https://contribute.jquery.org/style-guide/html/>
- Google - <https://google.github.io/styleguide/htmlcssguide.html>

Are they consistent with each other? Are there some rules that don't seem to make sense?

Can you find other style guides or coding standards that agree or disagree with some of the suggestions in one of these guides?

2. Check out the [W3C HTML Checker](#):

- Try "Direct Input" and type some HTML5 code with errors to see what it detects.
- Using "Validate by URI", try some popular Web sites and see if you can find any errors.
