Activity - View source and discussion
Activity - View source

Pick 5 Web sites and do a "View Source" on each of them by right clicking on the page and selecting "view source" from the context menu:

- How many are using HTML5?
  (*Hint*: if you have trouble finding sites that don't use HTML5, try looking at older sites)

- How many have proper `<body>` and `<html>` close tags?

- Is there a lot of white space? Why or why not?

Please share your findings in the discussion forum below.
